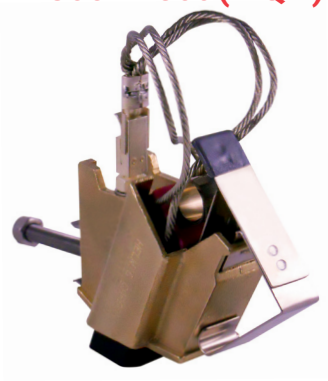
Helwig Quick Disconnect (HQD)

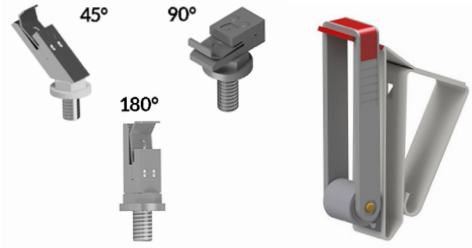


Brush Wear Indicator

Brush Wear Indicator + HQD

HQD Terminals

- Impressively fast and easy way to change brushes
- No screws to remove, lose or replace!
- HQDs lock together with a tight, positive locking action even under rough conditions



Brush Wear Indicator

- Optional brush wear indicator is the industry's most convenient way to monitor brush wear
- Red "danger strip" informs you the brush is worn out and should be replaced.
- Preventative maintenance's dream accessory
